

This support group is hosted by Altru Health System and the North Dakota Brain Injury Network

## Brain Injury/Stroke Survivor Support Group

*Meeting for encouragement, support, and advice for brain injury (traumatic brain injury, stroke, etc) survivors, family members, and caregivers.*

### Have you or a loved one experienced the effects of a brain injury?

Survivors, family members, and caregivers are invited for the opportunity to interact with other brain injury survivors and experts in the field. Each month will feature speakers and group discussion. Connecting with other survivors and caregivers to share experiences, information, and advice can be incredibly beneficial.

**Meetings are held on the last Tuesday of each month from 4:00-5:00 pm.**
