Powerful Tools for Caregivers

Children with Special Health and Behavioral Needs

April 4 – May 9

Thursdays from 6:00 - 8:00 pm Central
Via Zoom

Taught by Carly Endres and Nickie Livedalen, with the North Dakota Brain Injury Network and Chelsea Hammond, with the North Dakota State University Extension office. This six-week class series gives you the confidence and support to better care for your loved one – and yourself. Caregivers of ALL disability areas/conditions welcome! The course is free for North Dakota residents.

Powerful Tools for Caregivers classes help caregivers take better care of themselves while caring for a friend or relative. Whether you provide care for a spouse, partner, parent, friend, or a child with special needs; at home or in a care facility; whether down the block or miles away, yours is an important role. This course is for family caregivers like you!

The classes give you tools to help

- Reduce stress
- Improve self-confidence
- Manage time, set goals, and solve problems
- Better communicate your feelings
- Make tough decisions
- Locate helpful resources

In the class, caregivers receive The Caregiver Helpbook, which follows the curriculum and provides additional tools to address specific caregiver issues. "After taking this class I am a more confident caregiver! Having tools to resolve problems is a definite advantage in becoming a better caregiver and a happier, wiser, healthier me...and a healthier 'us!'"

- PTC Class Participant
